

NHS Services Provided

Dispensing

We dispense NHS prescriptions and give advice on how to get the most benefit from your medicines.

Repeat Dispensing

We can dispense NHS repeat dispensing prescriptions issued by your doctor. Please ask for details.

Electronic Prescription Service (EPS)

A free NHS service that is secure and confidential. It gives you more choice about which pharmacy your GP sends your prescriptions to. It will enable the pharmacy to prepare your prescriptions before you arrive so you don't have to wait. Please ask for details.

NHS Health Checks

A free NHS service for adults in England between the ages of 40 and 74, this can help you by assessing your risk of developing heart disease, stroke, type 2 diabetes or kidney disease and giving you personalised advice on how to reduce it.

Medicine containers

All medicines are dispensed in child resistant containers unless you ask us not to.

Please remember: **keep all medicines out of the reach and sight of children.** Our pharmacist can advise you on safe storage of medicines.

NHS Unwanted Medicines service

Please return all unwanted medicines to the pharmacy where we will dispose of them safely.

NHS Health Advice and Self-care

The pharmacist and our trained assistants are available for advice on all medicines and minor ailments. We can also give you advice on how to live a healthy life, for example, advice on how to stop smoking or healthy diets. We can direct you to other sources of advice and assistance if we cannot help you ourselves.

NHS Medicines Use Reviews

This is a medicine check-up service, which is useful if you regularly take several prescription medicines or are on medicines for a long-term illness. This confidential NHS service will help you to find out more about your medicines, identify any problems you may be having with them and help you to take your medicines to best effect.

NHS New Medicine Service

When you are prescribed a medicine to treat a long-term condition for the first time, the pharmacist will support you to use the medicine safely and to best effect.

The pharmacist will talk to you approximately two weeks after you first receive the medicine to see how you are getting on with it and to discuss any problems you may have. A second follow-up will be a month after you first receive the medicine. The service is only available to people using certain medicines; our pharmacist will give you details and offer this free NHS service, if this is available to you.

Patient Medication Records

Our computer allows us to keep records of all your prescriptions dispensed by us. This helps us check for possible problems, such as reactions between medicines and will help us deal with any queries you may have.

We comply with the Data Protection Act and the NHS code of practice on confidentiality. If you want to discuss the records we keep, please ask to speak to the pharmacist.
